

PRYDE SCHROPP McCOMB INC.

# FEATURE PROJECT PROFILE

## Safety Management Systems

Pryde Schropp McComb Inc. is working with 48 Airports across Canada on Safety Management Systems (SMS). PSMI will guide our clients through all Four (4) Phases of SMS. Our SMS clients include small community airports with one (1) employee to large international airports with over 100 employees. Each SMS program we implement is tailored to the unique characteristics of an airport, taking into account each airport's size and complexity.

PSMI deliverables to our clients include:

- Completion of Gap Analysis & Project Plan
- Development of Reactive and Proactive Processes
- Preparation of all SMS Policy & Procedures Documentation
- Completion of a Quality Assurance Program
- All SMS training
- Timely communication with Transport Canada regarding all SMS issues

THE BENEFITS OF WORKING WITH THE PSMI TEAM INCLUDE:

- Experienced Team – SMS experience includes Pearson and international work
- Time and Resources – Team and administrative support to get the job done
- Great Working Relationship with Transport Canada – Ensures a good flow of information including updates to the SMS program
- Flexibility – Create a plan for your Airport and its unique characteristics
- PSMI offers a “Turn Key” Solution
